PLATFORM COVERAGE
Web Console • Android • iOS

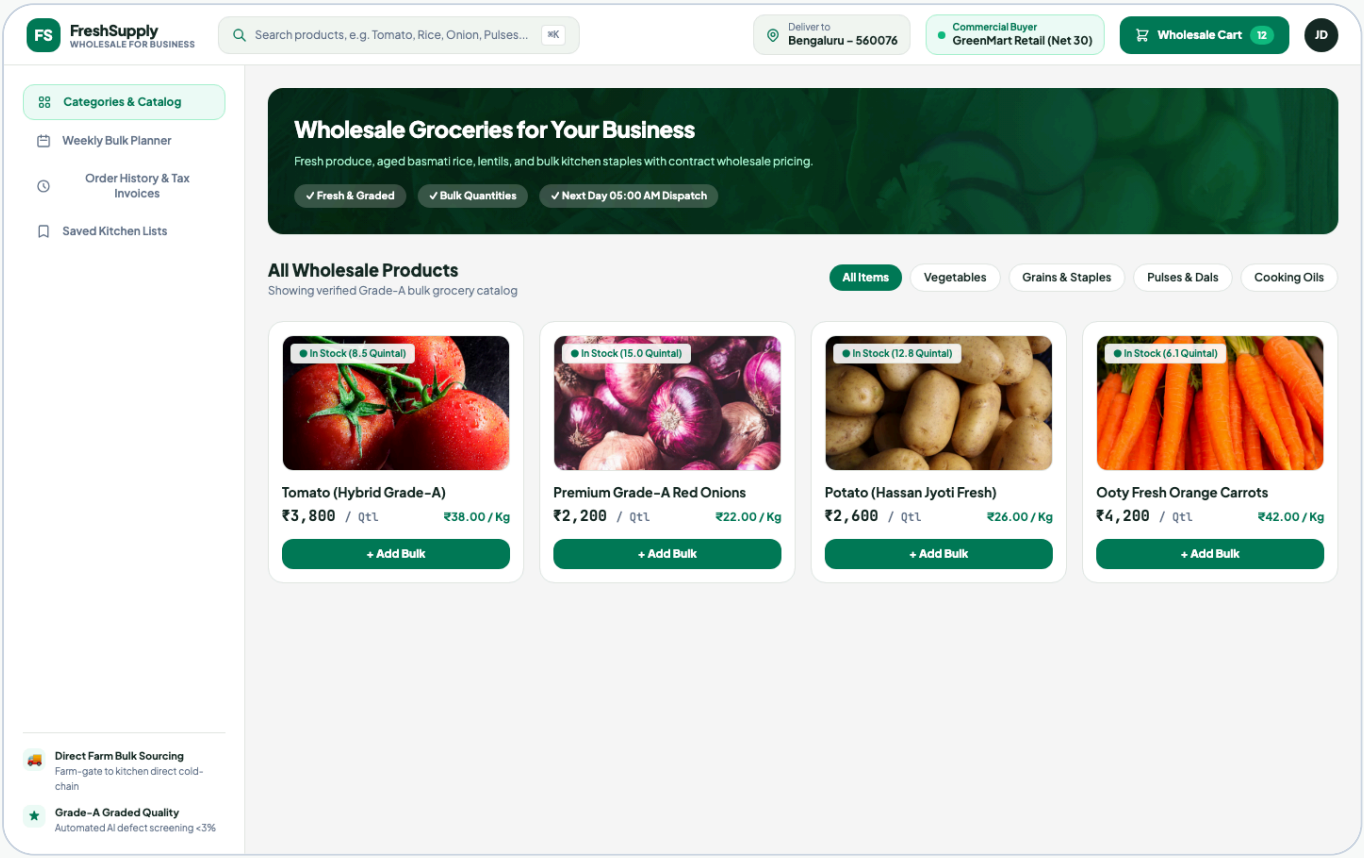

TOTAL SCREENS
21 High-Res Screens

DOCUMENT STRUCTURE

• Module 01: Web Desktop Applications (11 Screens)
• Module 02: Android Mobile App (5 Screens)
• Module 03: iOS Mobile App (5 Screens)
• Module 04: Design System Tokens
• Module 05: Client Approval Sign-Off Block
• Verified Commercial Tier Pricing Engine

Wholesale Produce Storefront & Bulk Ordering

Buyer Storefront • 1440 × 900

Dual Commercial Pricing

Displays Price/Quintal (₹3,800/Qtl) and effective Price/Kg (₹38.00/kg) for B2B buyers.

Live Stock Telemetry

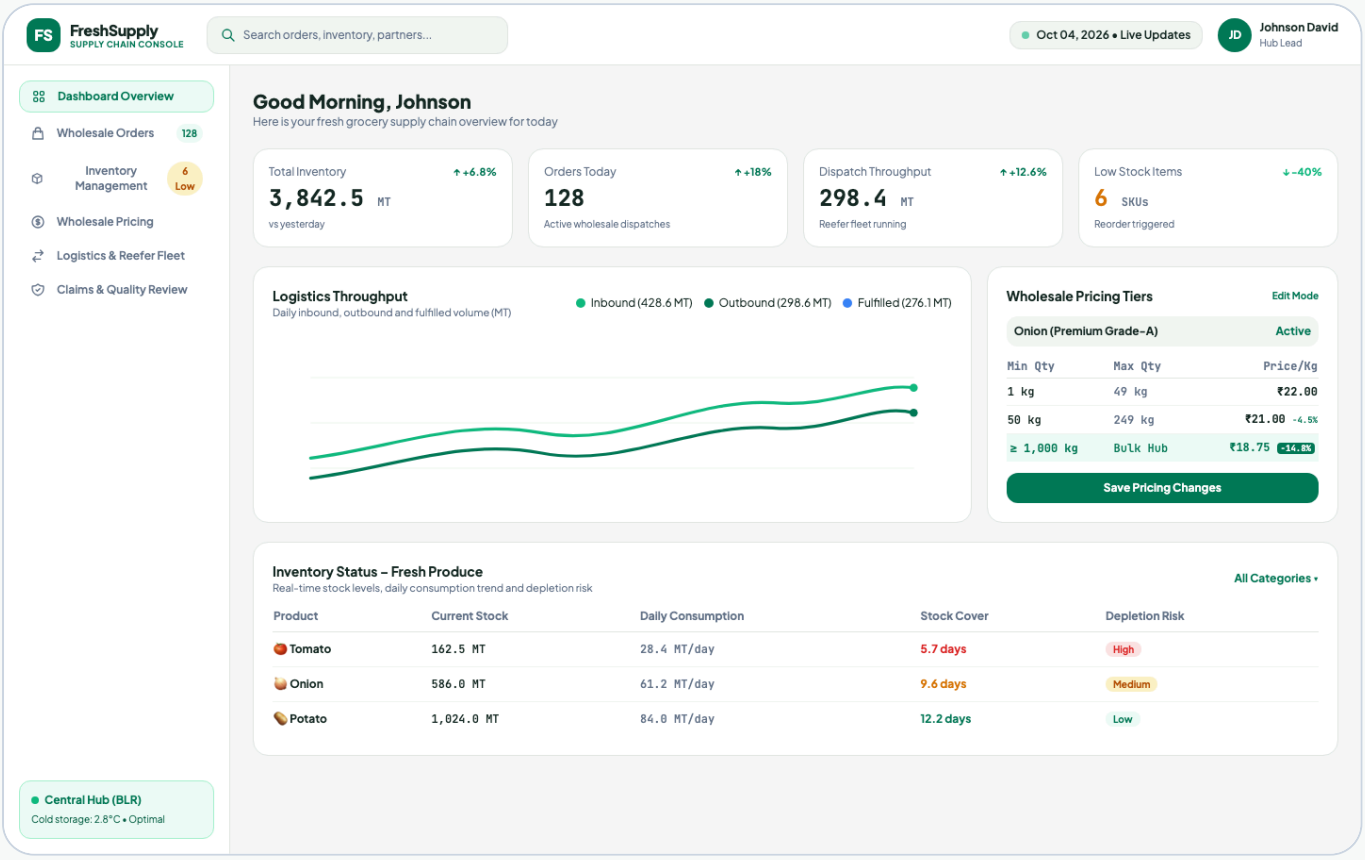

Stock availability badge (e.g. 8.5 Quintal available) synchronized directly with cold storage hubs.

High-Contrast Produce Grid

Top-down macro photography on clean white cards with instant "+ Add Bulk" ordering.

Supply Chain Console Admin Dashboard

Operations Console • 1440 × 900

Throughput Analytics

Dual-line comparison curve tracking Inbound receipts (428.6 MT) vs Outbound fulfillment (298.6 MT).

Supply Chain KPIs

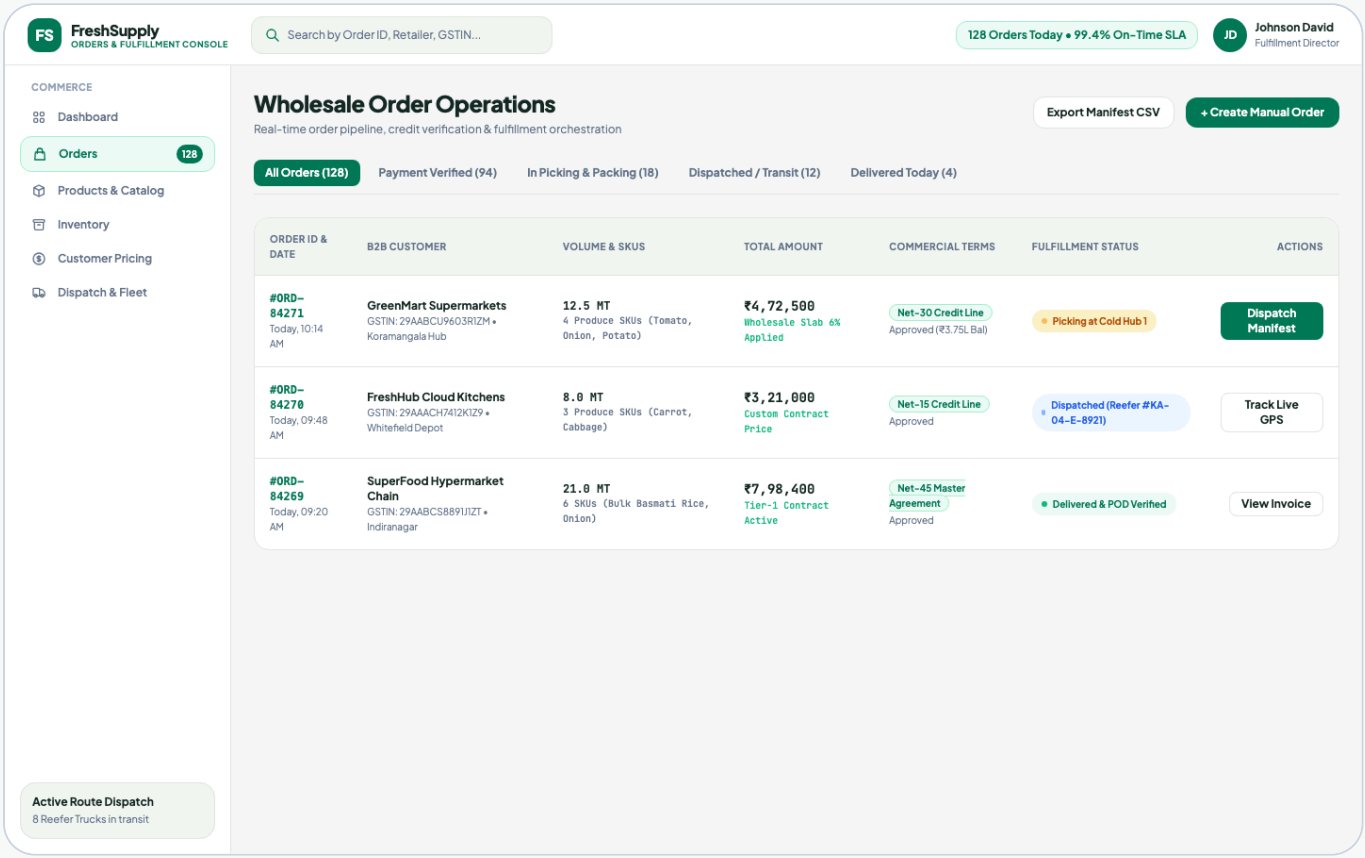

Total physical inventory (3,842.5 MT), active dispatch volume, and automated reorder alerts.

Wholesale Pricing Slabs

Direct quick-edit table to adjust tiered volume rates (e.g. ≥1,000 kg @ ₹18.75/kg).

Wholesale Orders Management & Fulfillment Pipeline

Commerce / Orders • 1440 × 900

128 Orders Pipeline

Real-time status tracking from Picking at Cold Hubs to Reefer En-Route and POD verification.

Commercial Terms

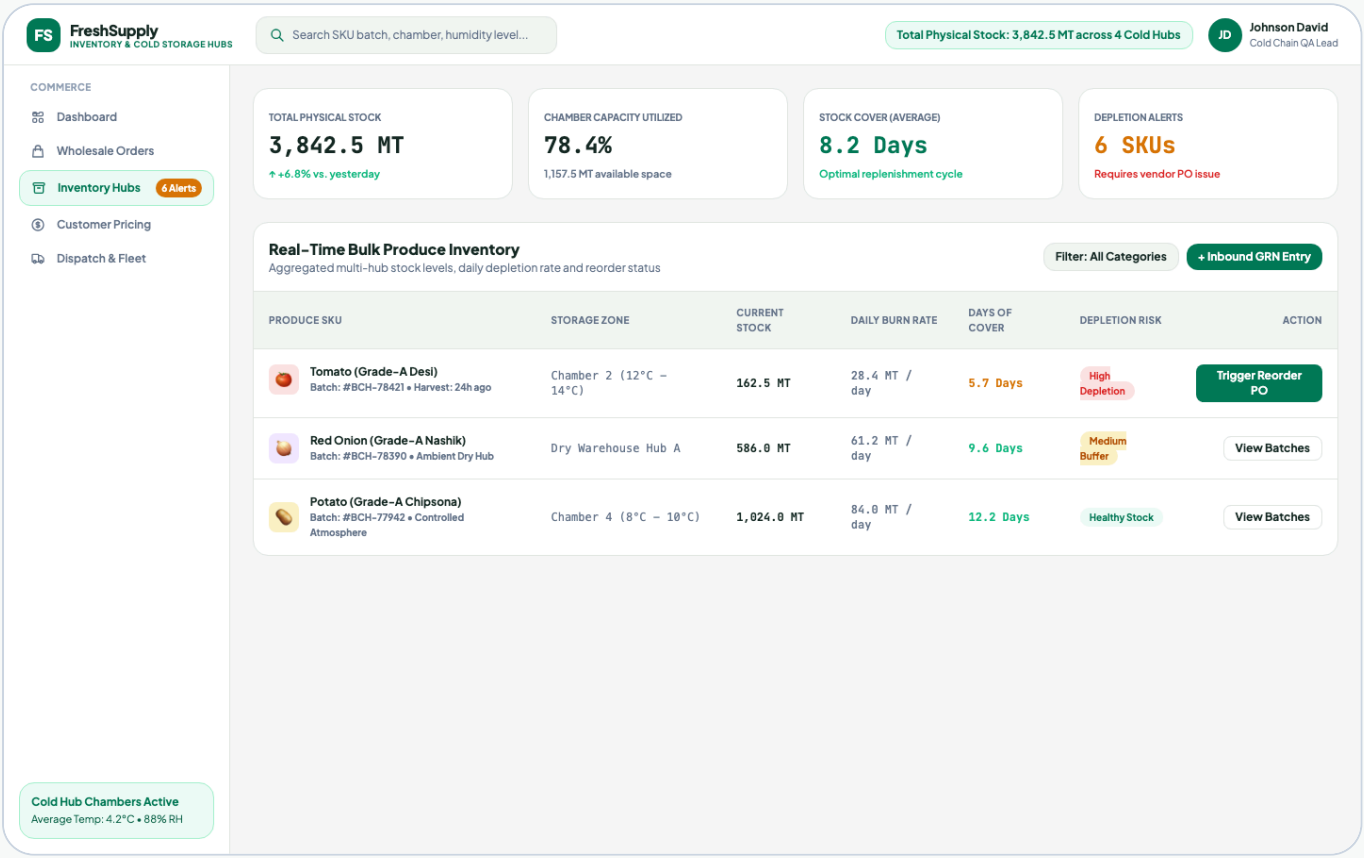

Automated buyer credit verification (Net-30/Net-15) and custom contract discount application.

Fulfillment Actions

One-click manifest generation, live GPS fleet tracking, and automated GST tax invoices.

Real-Time Inventory & Multi-Chamber Cold Storage Hubs

Commerce / Inventory • 1440 × 900

3,842.5 MT Stock

Aggregated physical inventory across 4 cold chain hubs with 78.4% capacity utilization.

Burn Rate & Cover Days

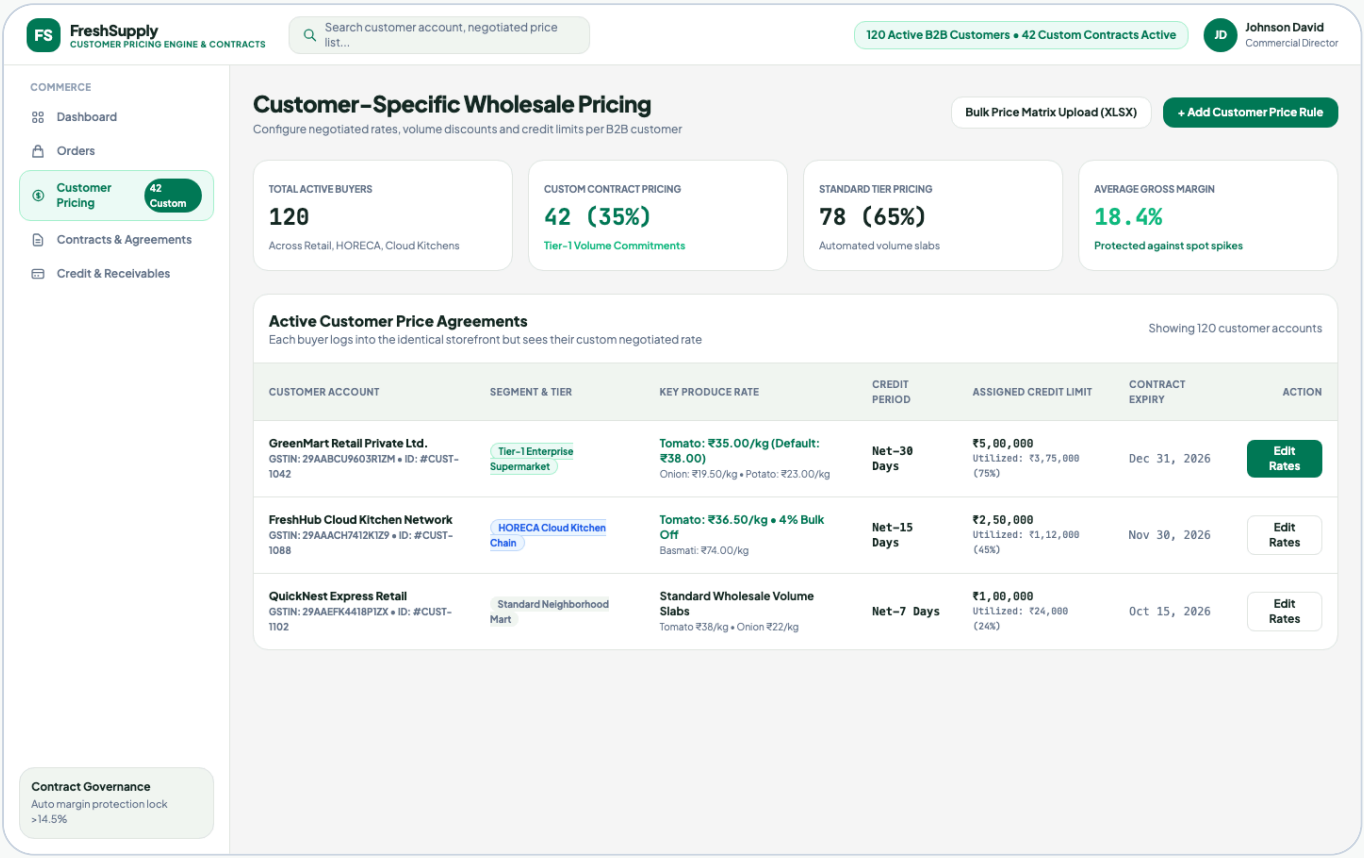

Calculates daily MT consumption (e.g. 28.4 MT/day) to estimate exact days of stock cover.

Depletion Alerts

Automated warnings triggering replenishment purchase orders before stockouts occur.

Customer-Specific Wholesale Pricing Engine & Contracts

Pricing / Contracts • 1440 × 900

120 B2B Accounts

Centralized database-driven price lists configured per buyer account without code changes.

Unified Storefront Experience

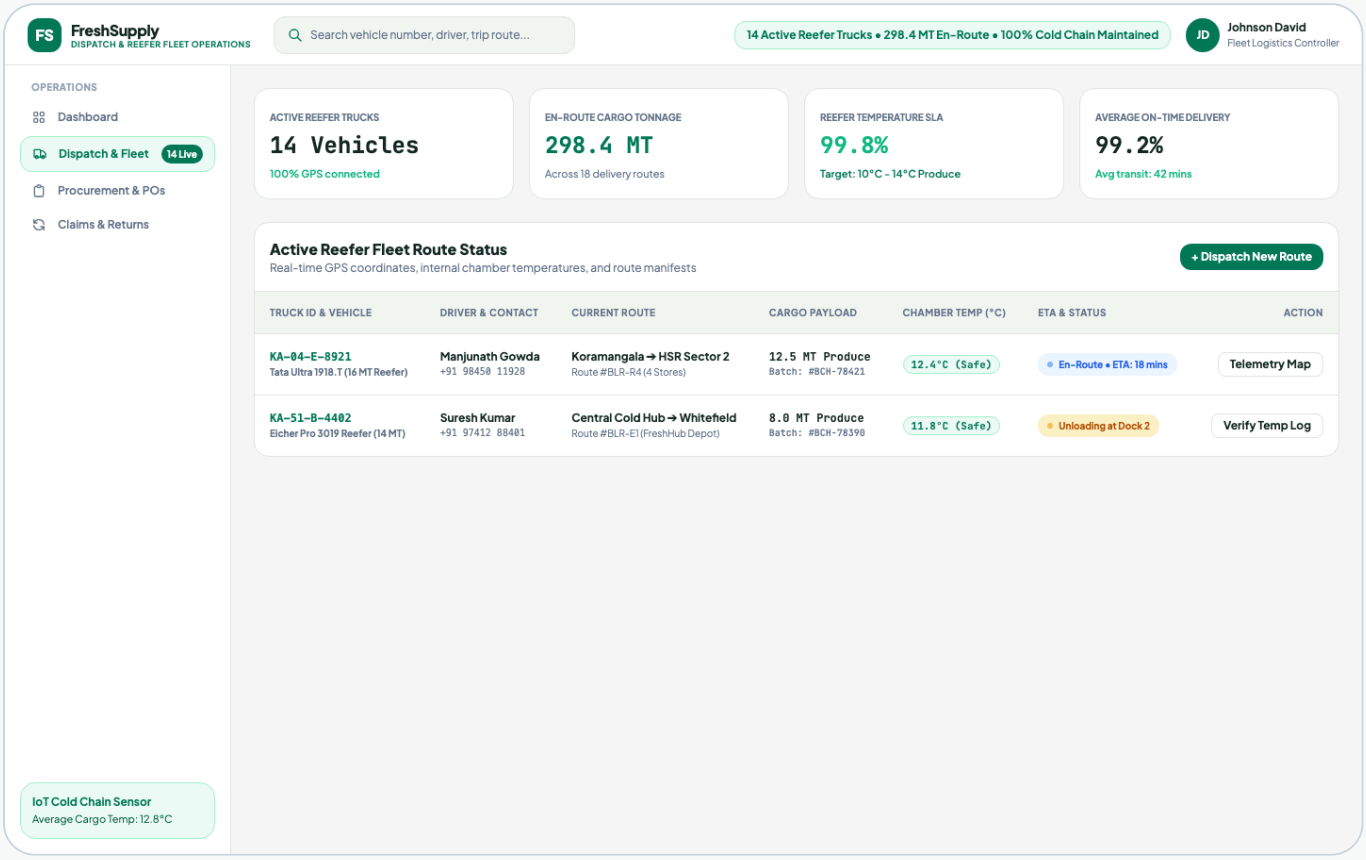

Every customer accesses the exact same UI; prices dynamically adjust based on active contract.

Margin Protection Lock

Automated guardrails preventing contracts below minimum gross margin threshold (>14.5%).

Dispatch & Reefer Fleet Operations (Cold Chain Telemetry)

Operations / Fleet • 1440 × 900

14 Active Reefer Trucks

298.4 MT produce en-route across 18 delivery routes with 100% real-time GPS telemetry.

Cold Chain SLA (12.4°C)

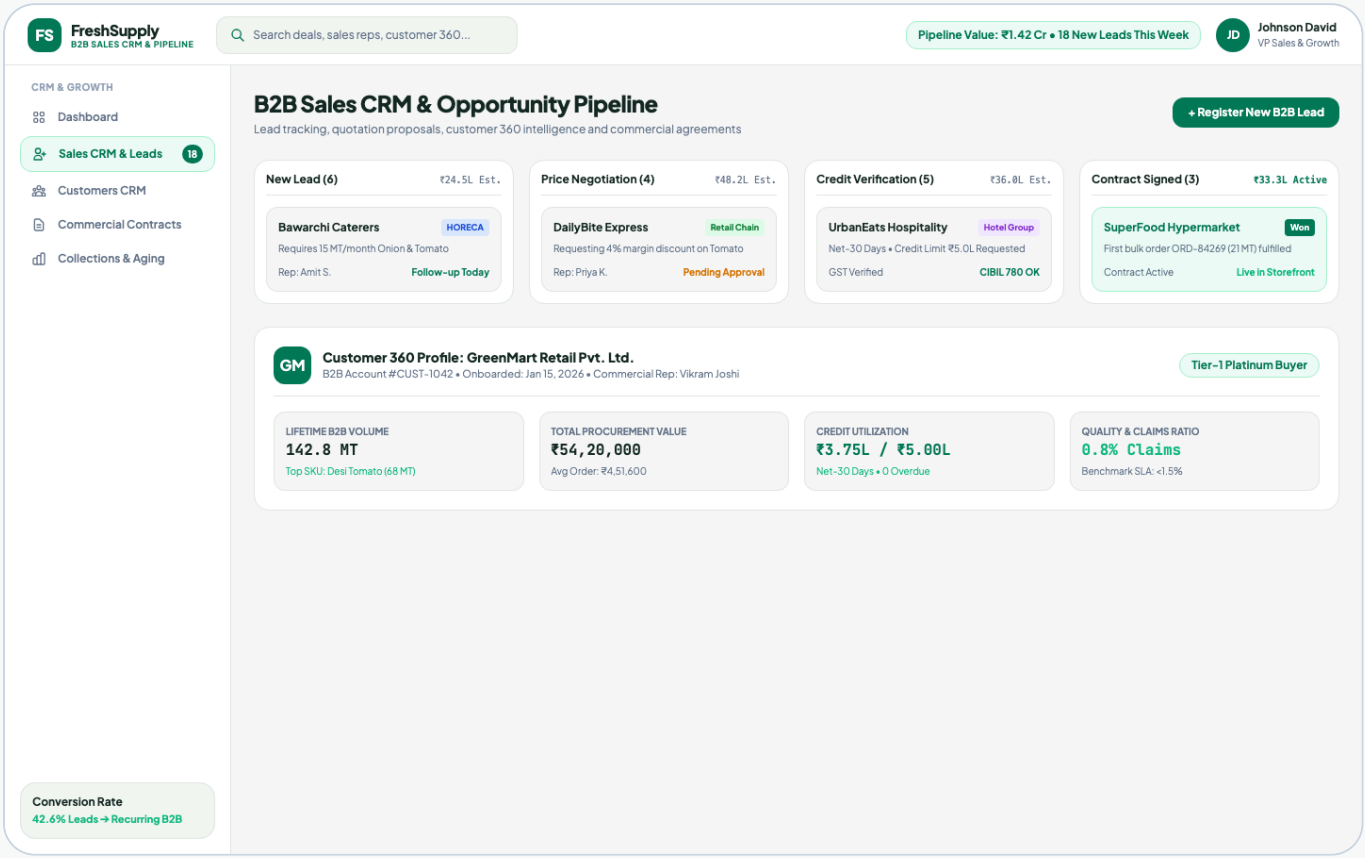

Live internal chamber temperature sensors ensure produce integrity between 10°C–14°C.

On-Time Performance

99.2% on-time delivery rate with average transit duration of 42 minutes per urban retail hub.

B2B Sales CRM, Opportunity Pipeline & Customer 360

CRM / Growth • 1440 x 900

₹1.42 Cr Pipeline

Visual deal stages: New Lead → Price Negotiation → Credit Verification → Contract Signed.

Customer 360 Spotlight

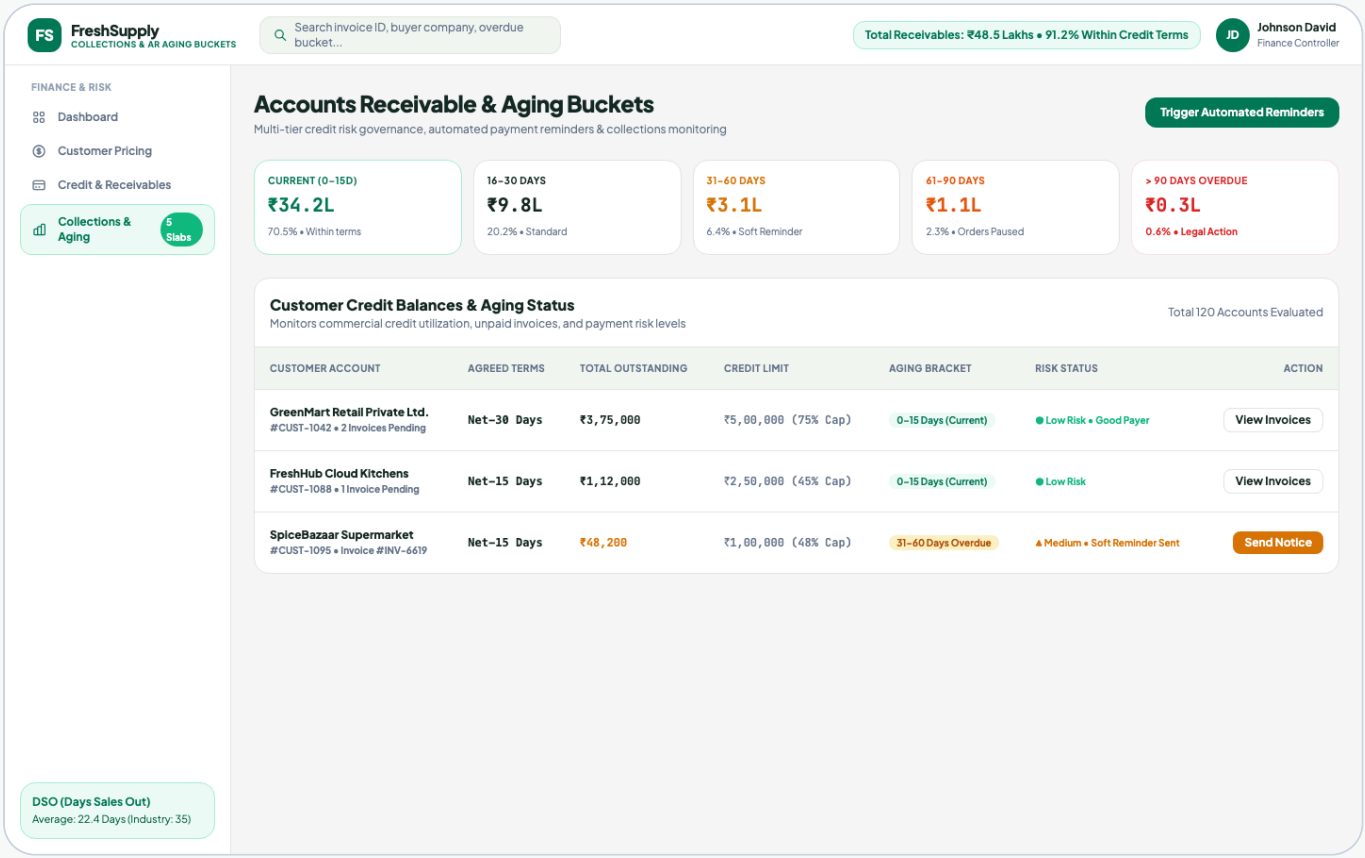

Comprehensive buyer profile showing lifetime volume (142 MT), average order, and credit terms.

High Conversion

42.6% lead conversion rate into recurring weekly procurement accounts.

Accounts Receivable Aging Buckets & Collections

Finance / AR Aging • 1440 × 900

5 Aging Buckets

Current (0–15d), 16–30d, 31–60d, 61–90d, and >90d buckets with automated escalation.

Low Days Sales Out

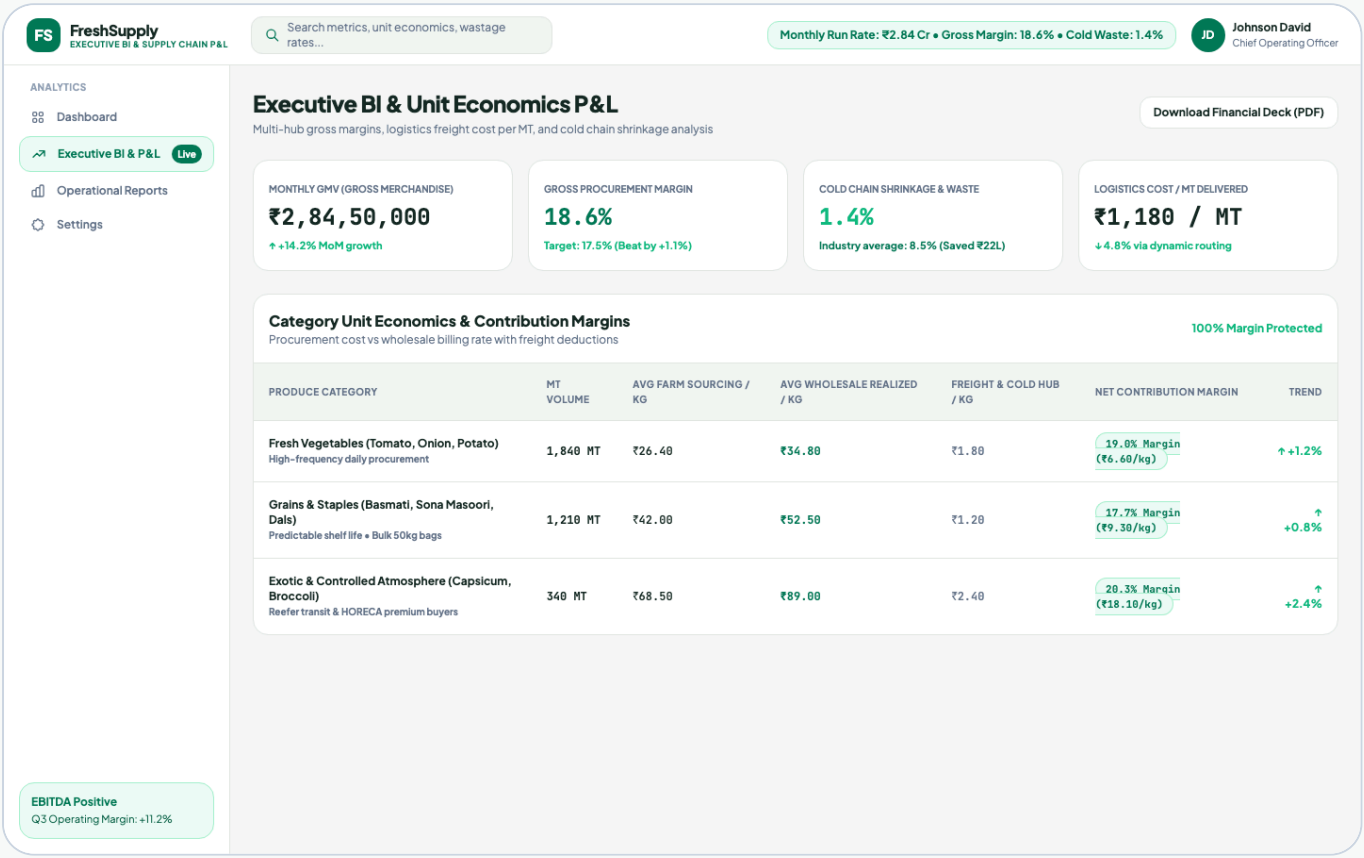

Average DSO of 22.4 days compared to 35-day wholesale industry benchmark.

Credit Risk Ledger

Instant visibility into credit utilization percentage per customer and overdue risk status.

Executive BI & Supply Chain Contribution Margins P&L

Analytics / BI • 1440 × 900

₹2.84 Cr Monthly Run Rate

Tracks GMV with +14.2% MoM growth driven by predictable recurring restaurant/retail orders.

18.6% Gross Margin

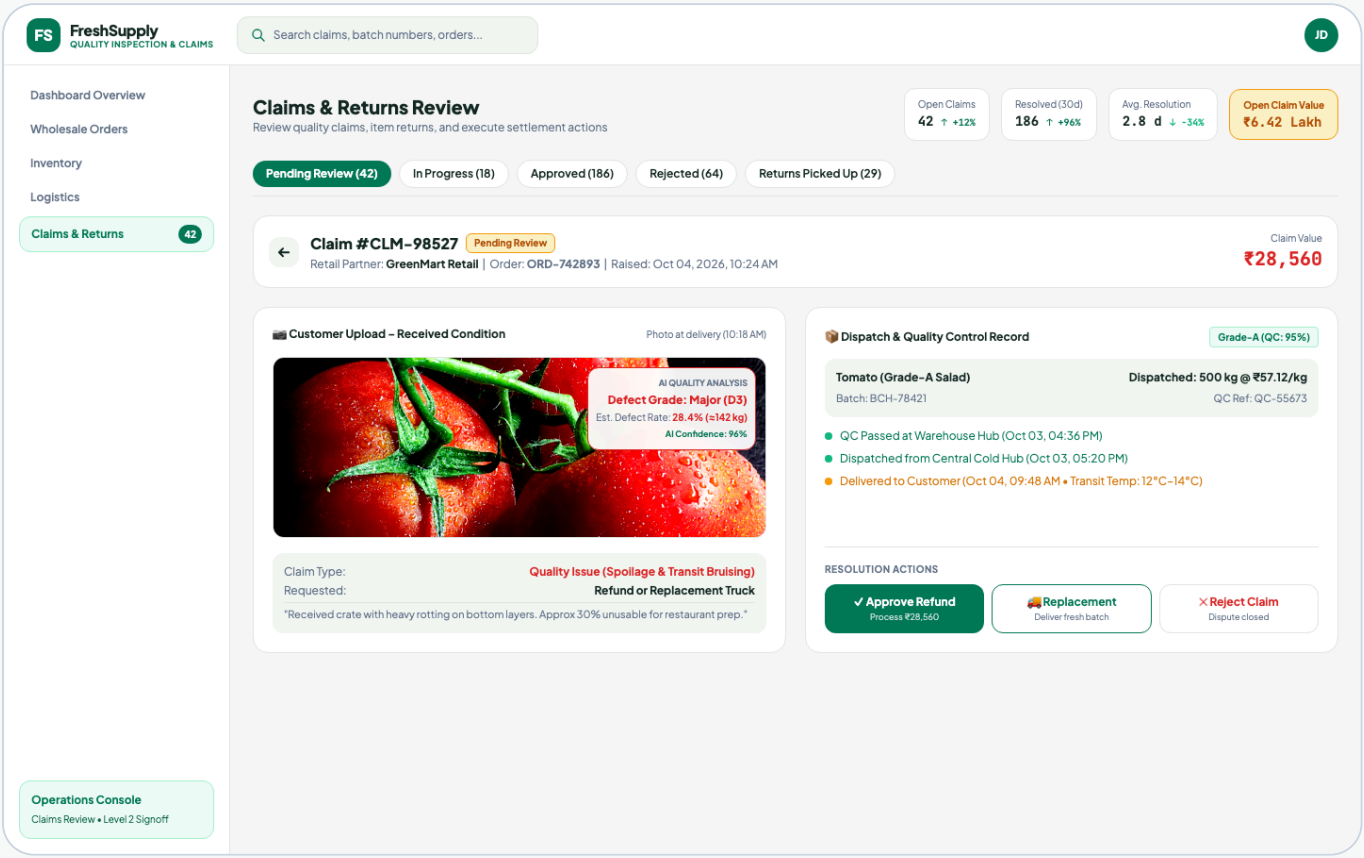

Average gross procurement margin exceeding internal budget target of 17.5%.

1.4% Cold Chain Waste

Cold storage telemetry reduces wastage from 8.5% mandi baseline to 1.4%, saving ₹22 Lakhs.

Quality Claims & Optical AI Defect Grading Review

Quality Assurance • 1440 × 900

AI Defect Grading

Automated optical grading detects Major D3 defect (28.4% damaged) with 96% confidence score.

Dispatch Traceability

Correlates claim photo with warehouse QC score (95% Grade-A) and transit temperatures (12°C–14°C).

One-Click Resolution

Allows instant issuance of credit notes (₹28,560) or scheduling replacement truck pickup.

Wholesale Vendor Partner Registration & Onboarding

Vendor Onboarding • 1440 × 900

FreshSupply Integrated Cold Chain Network

Suppliers gain access to multi-temperature storage chambers (0°C to 14°C), dock cross-docking bays, and automated digital grading for prompt payment release.

- ✓ Automatic electronic weighing & QC certification
- ✓ 7-Day guaranteed direct bank credit release
- ✓ Zero mandi middleman deductions

VENDOR HELP DESK
Call Toll Free: 1800-420-FRESH

3-Step Verification

Streamlined portal for FPOs, farmers, and wholesale aggregators to verify GSTIN and entity PAN.

Cold Hub Integration

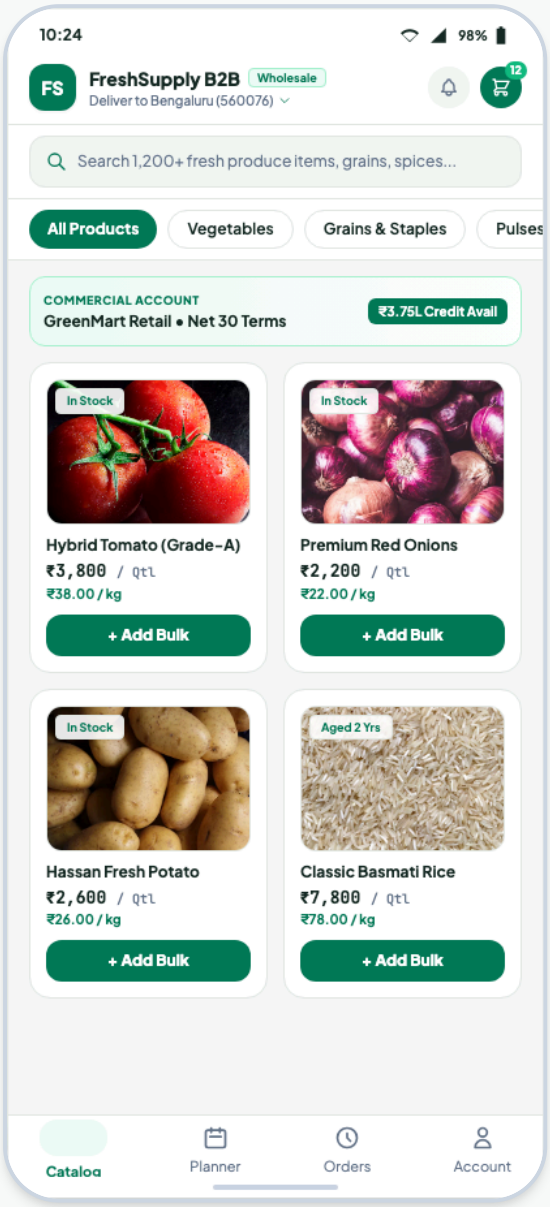

Configures warehouse storage parameters (0°C–14°C) and loading dock appointments.

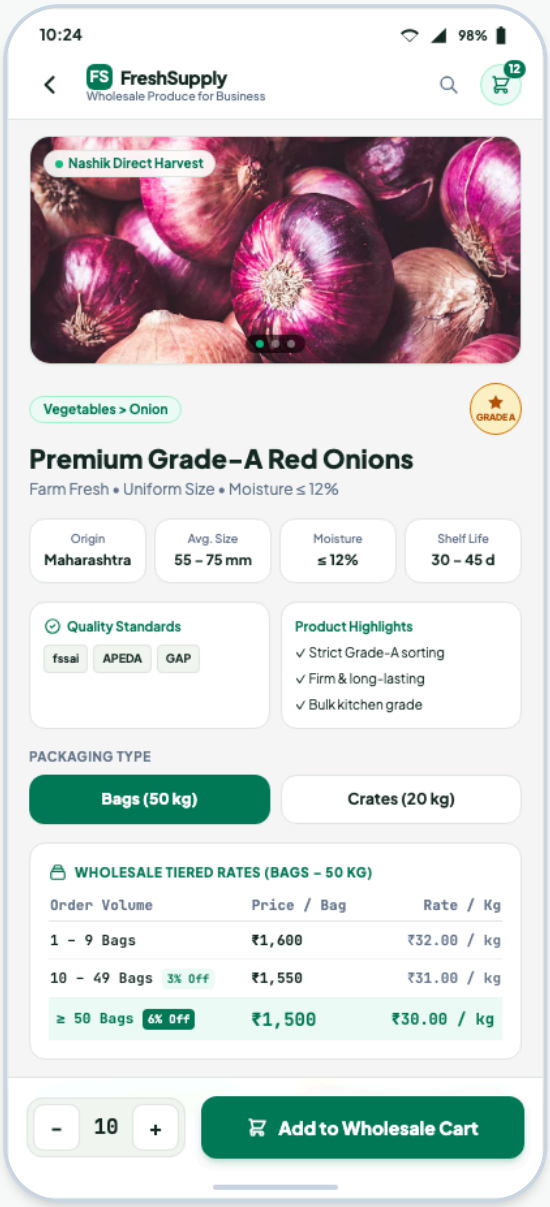

7-Day Payment SLA

Guaranteed automated payment release upon digital QC grade verification at the inbound gate.

Android App: Catalog & Tiered Wholesale Pricing

Google Pixel 9 Pro • Material 3

Screen 2.1: Produce Catalog & Discovery

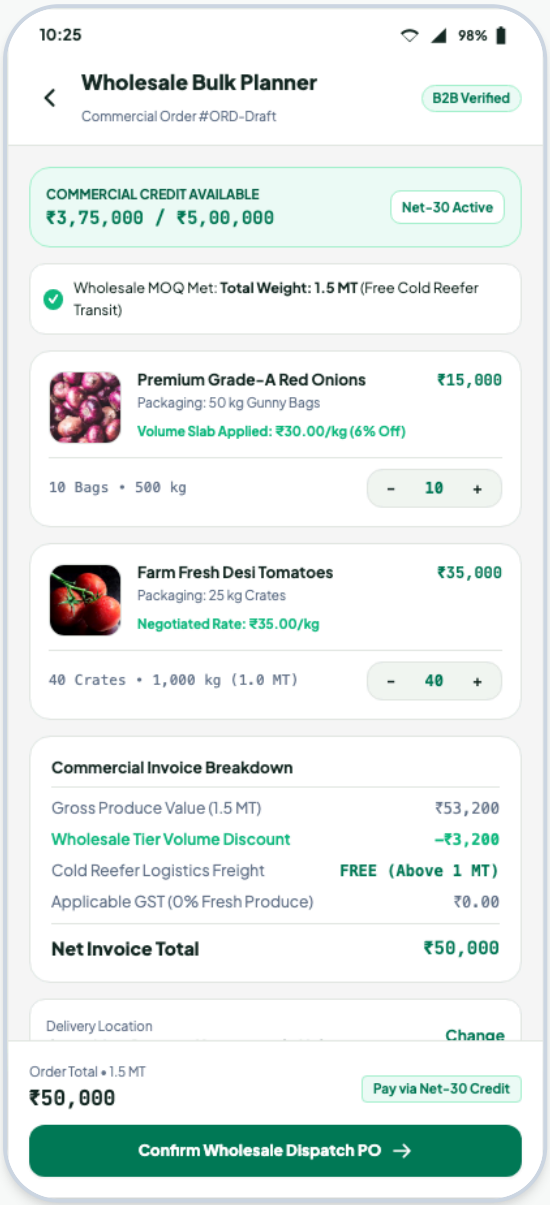

2-column produce cards with dual Quintal/Kg pricing, delivery location selector, category chips, and Material 3 navigation bar.

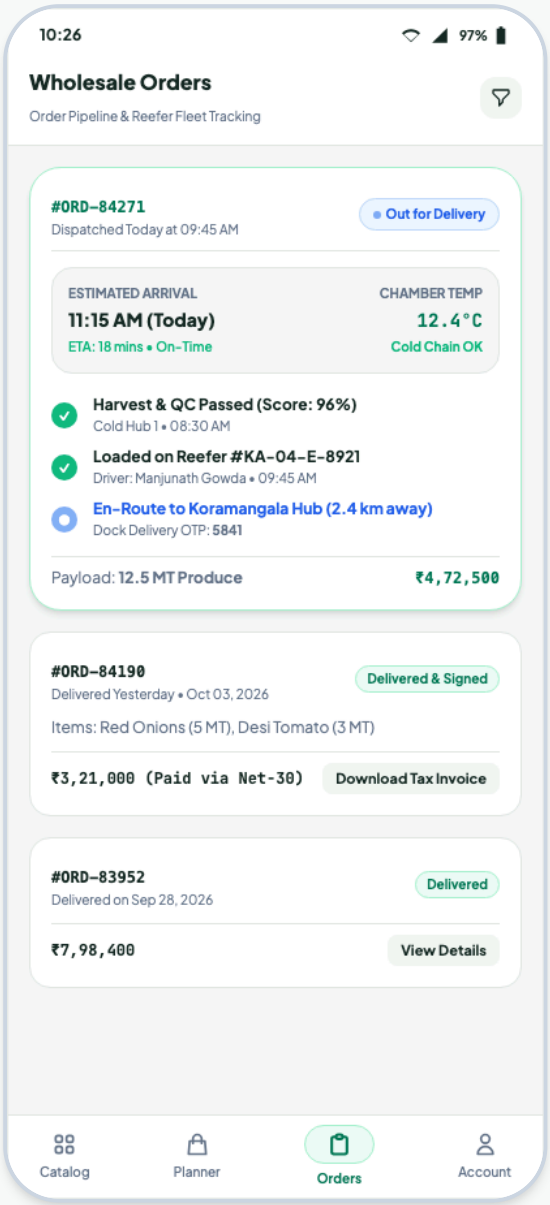

Screen 2.2: Tiered Volume Discount Slabs

Live pricing slabs (1–9 Bags @ ₹1,600, 10–49 Bags 3% Off, ≥50 Bags 6% Off), packaging selector (Bags vs Crates), and bulk stepper.

Android App: Bulk Cart & Real-Time Reefer Tracking

Google Pixel 9 Pro • Material 3

Screen 2.3: Bulk Planner & Wholesale Cart

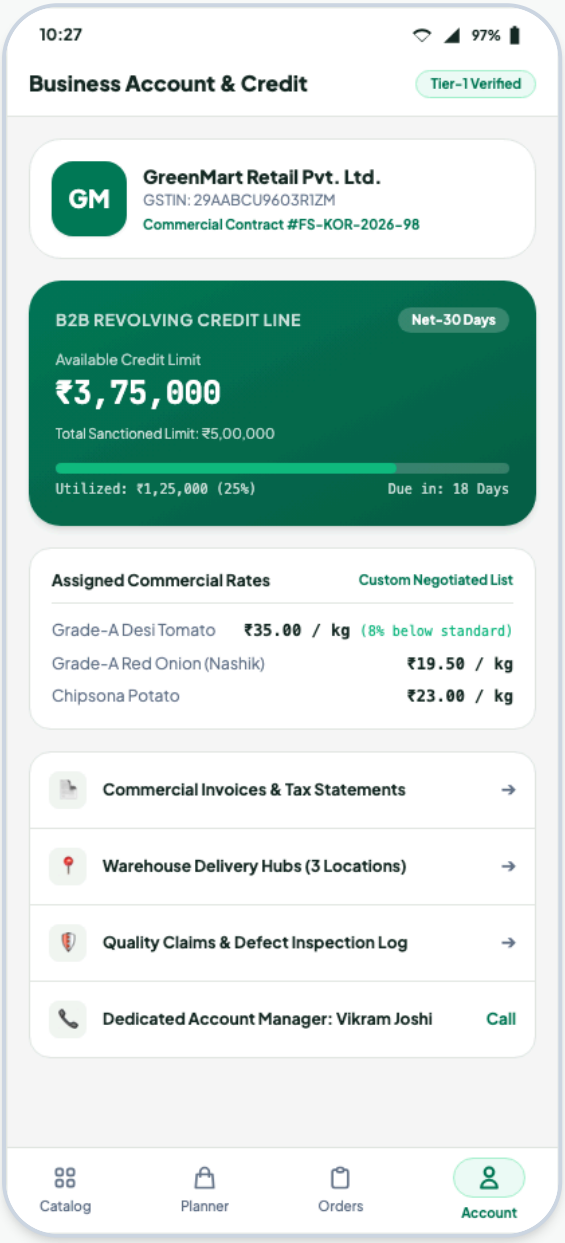

1.5 MT bulk order calculator, Net-30 revolving credit line pill (₹3.75L balance), minimum order qualification, and 1-tap dispatch PO button.

Screen 2.4: Orders & Reefer Live Telemetry

Real-time Reefer chamber telemetry (12.4°C), route progress milestones, dock delivery OTP (5841) verification, and invoice access.

Android App: Business Profile & Commercial Credit Facility

Material 3 Architecture

Revolving Commercial Credit Line

Visual card displaying sanctioned commercial limit (₹5,00,000), current utilization (₹1,25,000), Net-30 payment terms, and next statement due date.

Assigned Contract Rates

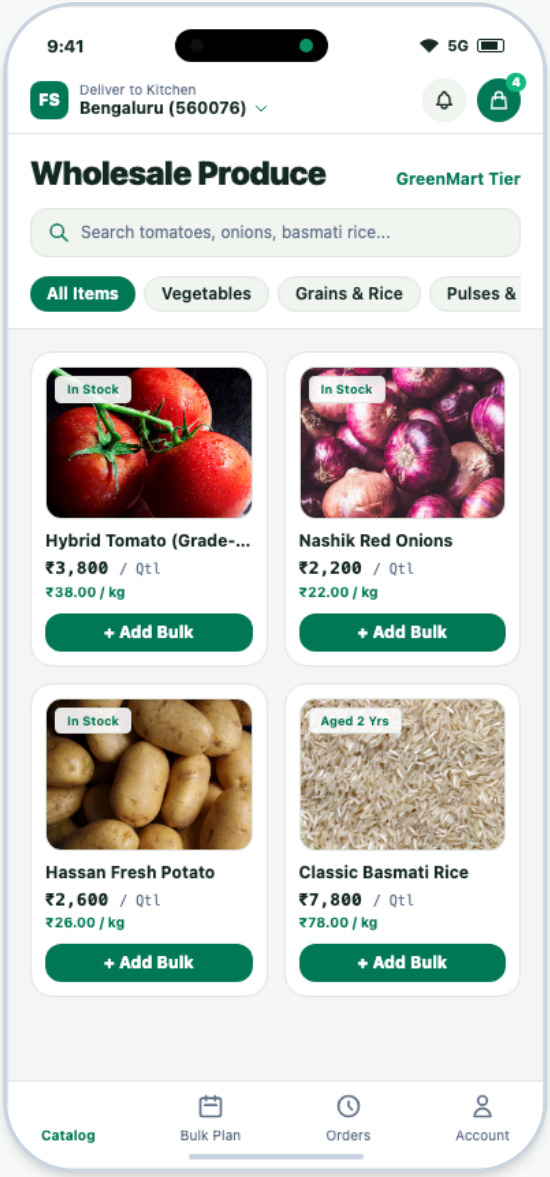

Quick-lookup of agreed produce rates (Tomato ₹35/kg, Onion ₹19.50/kg) with contract identifier #FS-KOR-2026-98.

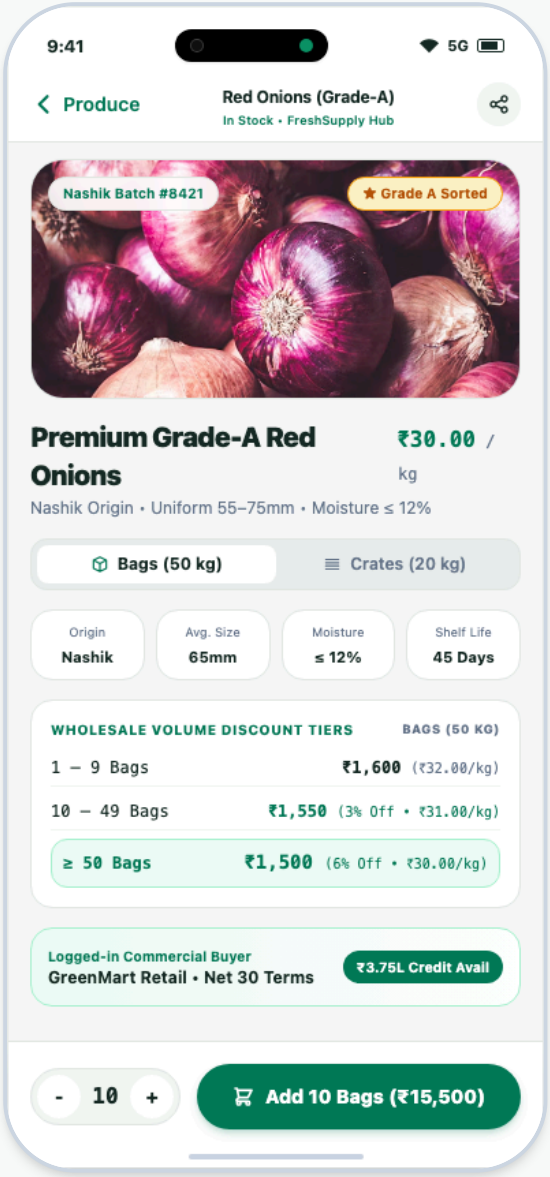

Jetpack Compose Design Architecture

100% Kotlin Jetpack Compose implementation utilizing Material 3 tonal surfaces, dynamic system bars, high-contrast typography, and accessible tap targets.

iOS App: Wholesale Catalog & Dynamic Island PDP

Apple iPhone 16 Pro • SwiftUI

Screen 3.1: SwiftUI Large Title Catalog

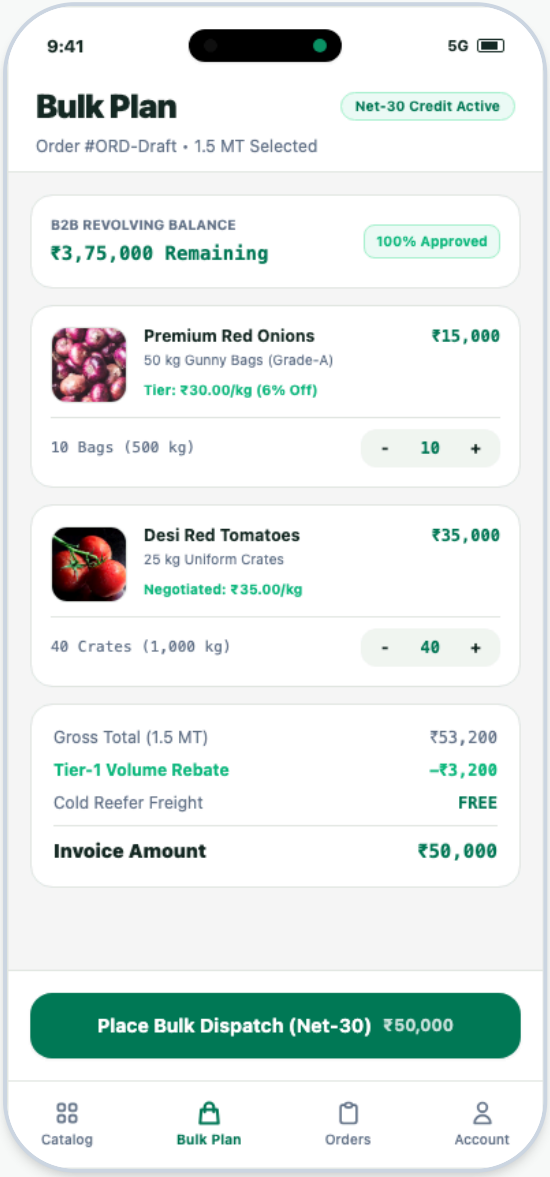

iOS 24pt large title, rounded search bar, category chips, 2-column produce cards with quintal pricing, and SF Symbols Tab Bar.

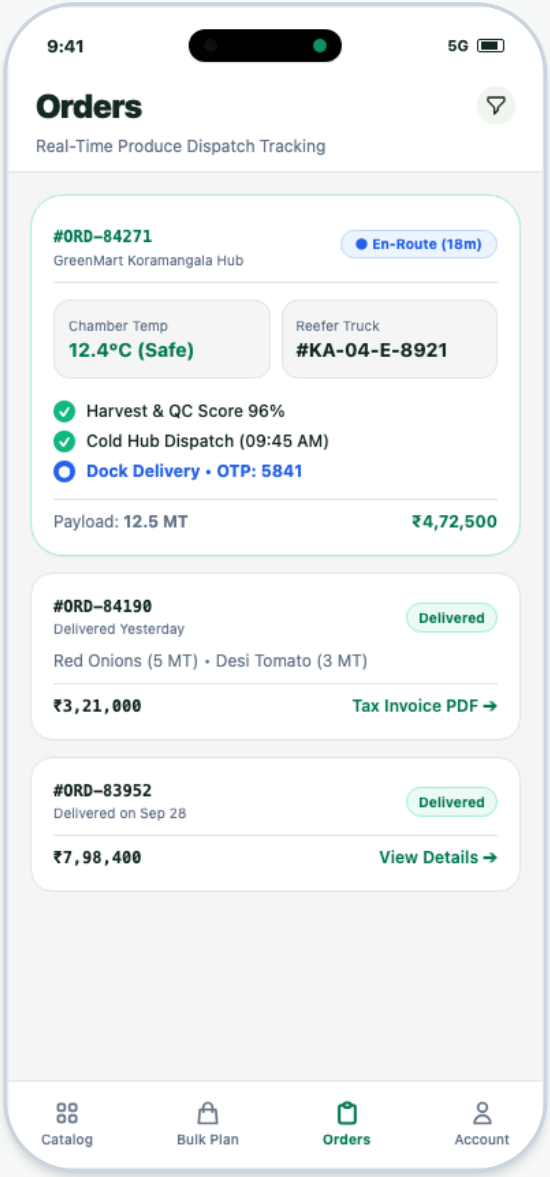

Screen 3.2: Dynamic Island & Segmented Control

Dynamic Island live stock indicator, native iOS segmented control (Bags vs Crates), and B2B commercial credit line status pill.

iOS App: Bulk Plan Cart & Real-Time Orders Tracker

Apple iPhone 16 Pro • SwiftUI

Screen 3.3: Bulk Plan & Net-30 Checkout

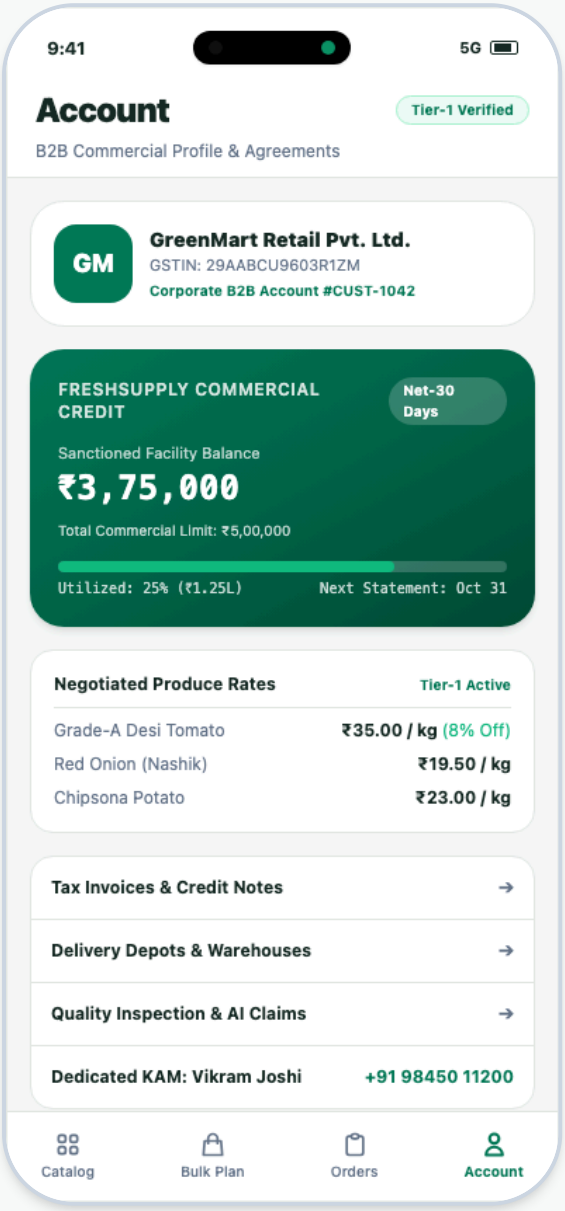

Clean white cards, volume discount rebate calculation, frosted glass action bar, and 1-tap Net-30 credit checkout button.

Screen 3.4: Orders & Reefer Tracking

Live delivery card, chamber temperature gauge (12.4°C), route milestones tracker, and dock delivery OTP verification.

iOS App: Commercial Credit Ledger & Account Profile

Apple HIG Architecture

Apple HIG Credit Facility Card

Gradient container displaying available revolving credit balance (₹3,75,000 of ₹5,00,000), percentage utilized (25%), and Net-30 statement dates.

Negotiated Commercial Rates List

Displays active contracted rates per kilogram with percentage savings below standard mandi rates.

SwiftUI Design Architecture

Native iOS 18 SwiftUI components with SF Pro typography, SF Symbols iconography, Dynamic Island live activities, and tactile haptic feedback.

Design System Tokens & Architectural Rationale

Enterprise Design Tokens

Primary Emerald
`#047857 • Brand & Primary CTAs`

Accent Green
`#10B981 • Trends & Badges`

Light Canvas
`#F7F9F8 • Low-Fatigue Canvas`

Card Surface
`#FFFFFF • Elevated Cards`

Primary Text
`#172B24 • High-Contrast`

Border Line
`#E2E8E5 • 1px Structural Lines`

Typography Hierarchy

- **Primary Font**: Plus Jakarta Sans / SF Pro (clean corporate geometry)
- **Numeric Font**: JetBrains Mono (monospaced clarity for weights and prices)
- **Contrast Ratio**: 11.4:1 against canvas (WCAG AAA compliant)

Architectural Principles

- **High-Contrast Light Theme**: Readable in outdoor daylight and bright warehouse bays
- **Zero Ambiguity Dual Pricing**: Eliminates manual conversion between quintals and kilograms
- **Reefer Cold Chain SLA**: Real-time sensor metrics integrated across all mobile and web screens

Official Client Approval & Authorization Sign-Off

Formal Authorization

Project Approval & Development Sign-Off

By signing below, the client authorized representative confirms formal review and approval of the visual specifications, user experience architecture, light-theme design system, customer-specific wholesale pricing engine, and responsive mobile interfaces for the FreshSupply platform.

Approved Deliverables Scope

- ✓ Web Wholesale Storefront & Bulk Ordering
- ✓ Orders Management & Dispatch Fleet Telemetry
- ✓ Android Mobile Application (Material Design 3)
- ✓ Supply Chain Operations Console Dashboard
- ✓ Customer-Specific Negotiated Pricing & Contracts
- ✓ iOS Mobile Application (Apple HIG / SwiftUI)
